EDUCATION

Louisiana State University (LSU), Baton Rouge, LA
Bachelor of Science in Computer Engineering

May 2026

River Parishes Community College (RPCC), Gonzales, LA
Associate of General Studies

May 2019

EXPERIENCE

Senior Design Electrical Leader

August 2025 – May 2026

Louisiana State University, Baton Rouge, Louisiana

- Led a 3-person Electrical sub-team within a 7-person cross-disciplinary group of Electrical, Mechanical, and Computer Engineers, overseeing task delegation, parts sourcing, and budget management across a \$5,000 total project budget.
- Designed the full electrical circuit diagram in KiCad, specifying and sourcing all components including DC battery, bus bars, DC-to-AC inverter, battery monitor, charger, fuses, and multi-gauge wiring to deliver 120V AC and DC power.
- Executed full installation of the designed circuit, completing and safely delivering the customized trailer to the East Baton Rouge Parish Library on schedule.
- Coordinated design reviews with the Mechanical sub-team throughout development to resolve cross-discipline feasibility concerns and refine drafts.
- Presented final design and project outcomes to a panel of industry professionals, faculty, and project sponsors.

IT Assistant

June 2022 – August 2022

Honeywell International/LTS, Geismar and Baton Rouge, Louisiana

- Collaborated with a team of 3 IT employees to provide technical support to over 200 employees across two locations.
- Deployed 50+ laptops by running custom scripts tailored to each employee's individual needs.
- Troubleshoot and diagnosed software and hardware problems, effectively communicating solutions to employees to resolve issues.
- Assisted in installing new servers by shadowing a senior technician and following proper procedures to shut down, dewire, install, rewire, and boot into the new server.

Owner / Technician – Freelance Electronics Repair

May 2024 – Present

Self-Employed, Prairieville, Louisiana

- Perform diagnostics and repairs on phones, laptops, desktops, and circuit boards, ensuring high-quality technical service and customer satisfaction.
- Manage full business operations including finances, pricing, and record-keeping.
- Source and acquire replacement parts through vendor research and negotiation to balance cost and quality.
- Provide direct customer service, including troubleshooting, communication, and after-service support.

SKILLS

Microsoft Word, PowerPoint, Excel, C++, C, Python, Bash, Cadence Genus, FreeCAD, MATLAB, PSPICE, KiCad, Linux

PROJECTS

CAD Product Design

- Designed and modeled multiple products in FreeCAD, including a pocket sized magnetic parts tray, a desktop headphone standing using a clamp holding style mechanism to secure it in place. This has helped me gain experience in 3D modeling, prototyping and product development.
